PRESIDENT WILSON OUTLINES PLANS

Presents Today The Covenant of The League of Nations—Araments To Be Cut Down

(By Associated Press)

Paris, Feb. 14—Bulletin—The Executive Council of the League of Nations, as outlined in the covenant read by President Wilson today, will consist of representatives of the United States, Great Britain, France, Italy, and Japan, together with representatives from four other states.

The Council shall meet as often as necessary, but at least once each year, at whatever place may be designated. Any matter within the sphere of action of the League or affecting the peace of the world, may be dealt with.

The President of the United States shall summons the first body of delegates and executive council. The League will have a secretary under the direction of a Secretary-General, who shall appoint other members. The Secretary-General shall act in that capacity at all meetings.

The representatives of the high contracting parties and league officials are given diplomatic privileges and immunity and buildings they occupy; given extra territorial benefits.

States not signatory to the covenant will be admitted with the assent of two-thirds of the states represented in the body of delegates and will be limited to full self-governing countries. No state will be admitted unless it effectively guarantees to observe the international obligations and conforms to the League's conditions regarding its naval and military forces and armaments. The high contracting parties undertake to preserve the territorial integrity and political independence of all states which are members of the League against external aggression and the executive council shall advise upon means by which the obligations of members will be fulfilled in case of threat of such aggression. It also reserves the right to take action to safeguard the peace of nations in case of war or threat of war.

Where disputes arise which diplomacy cannot adjust, the high contracting parties agree not to resort to war without submitting to arbitration or to inquiry by the executive council and not until three months after action by arbitrators or executive council. The council shall plan to establish permanent courts of international justice.

Concerning armaments, the covenant says, maintenance of peace will require the reduction of national armaments to the lowest point consistent with national safety and enforcement of international obligations by common action, the geography, situations and circumstances of various states being taken into account.

The council shall fix the extent of armaments which are not to be exceeded with the council's permission. The private manufacture of war implements is objected to and the council is directed to give advice on the abatement of this evil.

The contracting parties agreed not to conceal the ability to produce munitions and armaments and agree to fully interchange information on military and naval programs.

Disregard of the covenant for arbitration or executive council inquiry to be act of war and other members will take economic and financial measures against it. The measure refers both to league members and those not members. In such case it will be the duty of the executive council to re-

Kentucky Makes Great Gain In Livestock Values

Live stock on farms in Kentucky on January 1, 1919, was worth \$177,396,000, compared to \$158,587,000 on January 1, 1918. This was due partly to increased number of all stock except horses, which decreased slightly during the year, and partly to greater value per head of all kinds of live stock in Kentucky compared to prices January 1, 1918. The percentage of increase in value was greatest on milk cows and sheep.

Horses are very little more valuable than in January, 1918, the average price being \$104 this year, compared to \$101 last year. The average price of milk cows is \$72 a head compared to \$62 in January, 1918; other cattle \$42.50 compared to \$39; hogs \$16 a head compared to \$14.50 last year; sheep \$13.10 a head compared to \$11.20 last year; and mules \$127 compared to \$122.

During 1918, hogs on farms in Kentucky increased in number from 1,637,000 to 1,768,000 on January 1, 1919; sheep from 1,213,000 to 1,274,000; milk cows from 435,000 to 444,000; other cattle from 581,000 to 599,000; and mules from 224,000 to 231,000; while horses decreased from 443,000 to 438,000.

Lose Little Girl.

Elberta Edwards, the little two-year-old daughter of Prof. Charles Edwards, of Kingston, died early Thursday morning, from pneumonia following influenza. She was a bright and attractive child, the idol of the household. She is survived by two older sisters and a brother, who with her father and mother, the sympathy of many friends is extended. Burial in College Hill cemetery Friday.

DR. Harry M. Blanton, Dentist; office hours 9 to 12—1:30 to 4; phone 196; home 282.

commend the amount of naval and military forces which each member of the league shall contribute to the armed forces necessary to protect the covenants of the league. The contracting parties agree the league shall generally supervise the traffic in arms and ammunition with countries in which such traffic will be against the common interest.

Colonies and territory is removed from the sovereignty of states which formerly governed them and not yet able to stand alone, shall become a trust of civilization. Tutelage of such countries will be entrusted to advanced nations which can best undertake this responsibility and such tutelage shall be mandatory. The contracting parties will endeavor to secure and maintain fair and humane conditions of labor for men, women and children, and agree to establish as part of the league's organization a permanent bureau of labor.

The league members agree to support one another economically and financially in any measures taken; to pass through their territory any forces necessary to carry out the league's covenants and in disputes with non-members, will invite the latter to lay the subject before the league. They agree to free transit and equitable treatment for commerce of all league members; abrogate all treaties inconsistent with this covenant, and incur no further obligations of that character.

The concluding article provides that all further amendment to the covenant must be ratified by three-fourths of the state, whose representatives composed the body of delegates.

Here's Another, Beat It If You Can One Basket of W. L. Prather's Crop Sells at \$1.21 at the Madison House

It certainly looks as though the Madison Tobacco Warehouse Company has started out to make the world's record on tobacco this season, judging from the remarkable high prices they have obtained lately. Again, this morning they went over the top when a basket of 35 pounds belonging to the splendid crop of W. L. Prather, of Garrard county, reached the high figure of \$1.21 per pound. They also brought forth loud praise from Mr. Vernon Leer and his partner, Mr. Mills, when they sold from their crop a basket of 20 pounds at \$1.19 per pound.

Elmer Deatherage and his co-workers have not spared time nor money this season that they might be able to give the farmers of Madison and adjoining counties the time and interest they so rightly deserve, and their efforts have been appreciated by every man who has sold over their breaks. When you get the price for Mr. Farmer's tobacco, you've made a life long friend, and they will tell of their success from Poosey Ridge to the ends of the earth. Never in the history of this popular house was such a landslide business transacted, and with Elmer Deatherage, the right man in the right place, the prospects for making Richmond the leading tobacco center of the state, is predicted by his many friends.

News of the Churches

Don't fail to hear Curtis Jett lecture at the Methodist church this evening at 7:30.

First Presbyterian Church. Sunday School 9:30; morning service at 11; subject, "The Deacon's Sermon;" evening service at 7; subject "The Eternal Elements of Our Faith."

First Baptist Church. Sunday School 9:30; morning service at 10:45; subject "Soul Liberty and the New Age;" evening service at 7; subject "Our Father," the first of a series on the Lord's Prayer.

Methodist Church. Sunday School 9:30; morning service at 10:45; subject "Historical and ary," Epworth League at 6; evening service at 7.

Calvary Baptist Church. Sunday School 9:30; morning service at 11; sermon by Rev. L. A. Byrd B. Y. P. U. at 6; evening service at 7.

Tobacco Census Figures Please Burley Growers

Tobacco growers are much interested in the official statement of the Department of Commerce as required by the Cantrill tobacco law, showing the number of pounds of leaf tobacco in the hands of the manufacturers and dealers in the United States.

This report is very encouraging from the standpoint of the tobacco grower, and thoroughly justifies the high market which is prevailing, especially on the burley type of tobacco.

The Cantrill tobacco law requires a sworn statement to be made by every manufacturer and dealer and the reports made on January 1, show that the stocks of tobacco of all types grown in the United States are practically the same as last year, but the report further shows that so far as the white burley stocks are concerned there is a tremendous shortage of burley tobacco.

The report just issued shows that the manufacturers and dealers have in stock 5,000,000 pounds less of burley tobacco than they had on January 1, 1917, and 90,000,000 pounds less than they had on January 1, 1918.

In fact, during the seven years that the Cantrill tobacco law has been in force, the stocks of burley tobacco are greatly less than they have been at any time since the law has been in effect.

The statement just issued shows that the manufacturers and dealers January 1, had only 139,000,000 pounds of burley on hand, whereas on January 1, 1918, they had 177,000,000 pounds, and on January 1, 1917, had 188,000,000 pounds, so it is very evident that the demand by the consumers of tobacco has been steadily increasing for the burley type, and consequently the stocks in hands of the manufacturers and dealers have been steadily decreasing until their stocks are lower than ever in the history of the tobacco market.

This makes it very evident that the high prices now being paid for burley tobacco will continue and, in fact, I would not be surprised at the prices going still higher. The Cantrill tobacco law has been in effect now seven years and the statements made by the Bureau of Census under the law are accepted by the entire tobacco trade of the United States as being thoroughly correct.

The statement is certainly very encouraging to the growers of tobacco in the United States and especially to the growers of the burley type.

Mr. William Mellon, Mr. Geo. Ginter, Mr. G. L. Edwards motored to Winchester Tuesday on business.

Dressmaker Gives Advice

"I underwent a surgical operation for gall stones five years ago, was in the hospital for four weeks. For one year I felt better, but then my old symptoms and pains returned, and I have suffered ever since. Four weeks ago on the advice of a lady I tried Mayr's Wonderful Remedy, and I know feel like a new woman. I have a number of friends who suffer as I did and I am advising all to try this valuable medicine." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. H. L. Perry & Son's, and druggists everywhere. 1t

WITH our Radiator Covers, your engine will run just like it did in the "Good Old Summer Time." Central Service Station.

DEERING WINS BIG DAMAGE SUIT

Jury Gives W. N. Deering a Verdict of \$12,000 Against the L. & N. Railroad.

The \$25,000 damage suit brought by W. N. Deering, a carpenter, against the L. & N. railroad, was decided in circuit court this morning, the jury rendering a verdict for the plaintiff in the sum of \$12,000. Mr. Deering was represented by Attorney John Noland and Judge Frank Peak, of Louisville. Mr. Deering was made a cripple for life by falling from a scaffold while working on a depot building the company was erecting at Maloney, Lee county. The railroad company was represented by A. R. Burnam, Jr.

Curt Jett Lectures Tonight

Tickets for the Curtis Jett lecture on sale at Middleton's and Stockton's. Friday night at 7:30 at Methodist church. Subject, "Saved by Grace."

WILLOUGHBY ON ROAD AGAIN

Prewitt Willoughby goes back with the Atlas Coal Company the first of March, and will travel for them in Kentucky and Southern Ohio. Mr. Willoughby is one of the most popular young business men of Richmond and proved a very valuable man for this company when he was with them before. His brother, Hubert, will continue to conduct their coal yard here, it is understood.

AVOID THE FLU BY KEEPING LIVER ACTIVE

Doctors Find Calotabs, the New Nauseless Calomel, Best Laxative For Colds and Preventive For Influenza and Pneumonia.

To cut short a cold over night, to stop a sore throat, and to put the system in the best possible condition to avoid influenza and pneumonia, doctors are advising the new nausealess calomel, called Calotabs, which are free from the sickening and salivating effects of the old-style calomel. At the first sign of a cold or sore throat, it is best to take a Calotab at once, before the inflammation has gone too far. You may thus save yourself a spell of sickness.

One Calotab at bed time with a swallow of water—that's all. No salts, no nausea, nor the slightest interference with your eating, pleasure, or work. Next morning your cold has vanished, your liver is active, your system is purified and you are feeling fine, with a hearty appetite for breakfast. Calotabs are sold only in original sealed packages, price 36 cents. Your druggist recommends and guarantees Calotabs by offering to refund the price if you are not perfectly delighted with them. 1t

HUGE SUB CRUISERS

British Admiralty Lets Out Secret of Craft.

Have Two Funnels and Make 24 Knots on Surface Under Steam.

London.—The admiralty has permitted to be made public the real story of the submarine cruisers the British successfully constructed at the time the Germans were boasting of their super-submarine.

The British craft have two funnels and make 24 knots an hour on the surface under steam power. They carry from eight to ten torpedo tubes, two or three four-inch guns and also are equipped with internal combustion motors for surface cruising. The batteries for the undersea power can be charged from both the steam and combustion engines and an ingenious scheme has been devised for quickly dismantling the funnels for the purpose of submerging.

The vessels displace 2,000 tons on the surface and 2,700 tons submerged. They are 340 feet long, have a beam of 26 feet and a cruising radius of 3,000 miles. They are designed to be even a match for torpedo-boat destroyers in surface fighting.

It is also known that the British have successfully built a submarine carrying a 12-inch gun, although the details of this craft have not been made public. The new ideas embraced in the construction of the craft include the "cushioning" of the boat to withstand the terrific concussion of the gun. This idea is represented unofficially as having been successful. So far as is known the new craft was never employed against any enemy vessel.

FAMOUS BLIND EDUCATOR

Sir Arthur Pearson, famous blind publisher and educator, arrived in America recently to lecture for the Red Cross on his methods of educating the blind, a task to which he has committed his life and fortune. Sir Arthur founded the St. Dunstan's hospital for blinded soldiers and sailors in Regent's park, London. Despite his affliction he reached the highest pinnacle of English journalism, owning the London Daily Express, Pearson's Monthly and 19 other publications, all of which he has recently sold. He will tour America, lecturing for the benefit of the American blind, to stimulate interest in the training of those unfortunate according to the St. Dunstan hospital plan.

LAUNCH 26 STEEL VESSELS

All Records for Shipbuilding Broken by Skinner & Eddy's Big Plant at Seattle.

Seattle, Wash.—Smashing all records for shipbuilding, the Skinner & Eddy corporation's plant No. 1, in this city, launched 26 steel steamships in the year 1918. The vessels had an aggregate tonnage of 232,400 deadweight tons.

As the plant has five shipways the average tonnage for each way was 46,480 tons. Nothing approaching this average has been accomplished before in the history of the world's shipbuilding.

No other five shipways at one plant have averaged more than 40,000 deadweight tons in a year, according to marine experts.

There have been records of a single way of more than 40,000 tons in a year, but that was where one large ship was built in a year.

The last of the vessels constructed at this plant for the year was the steamship Edgfield that was delivered on the last day of the year. She is a 9,600-ton vessel.

Your Name _____
Post Office _____
County _____
Shipping Station _____
Express or Freight _____
Fall or Spring _____ Date _____

We will begin shipping March 25th and October 25th.

All orders will be well packed so they will stand a ten or twelve day shipment without injury. If delayed longer than this, put the roots of the bundle into a tub of water for several hours before unpacking. Then plant the trees, using plenty of water.

Send orders in early so we can give you a good selection and an early shipment.

Our stock now is the best we have ever grown, and it is sure to please you.

G. D. SMITH,
AGENTS WANTEDHead of Science Department in E. K. S. N.
and Proprietor Maiden Ridge Fruit Farm and Nursery.**LIEUT. EDWARD GRAY
KILLED TWO GERMANS**

Madison Boy Writes Sister of Great Experiences He Had in War Before Huns Captured Him.

His sister, Mrs. Harlan Combs, has just received a letter from Lieut. Edw. Gray, who was captured by the Germans at the Marne, where the Americans stopped the rush toward Paris, and then had to spend several months in a German prison camp. He says:

Jan. 1, 1919.
My Dear Sister and Family—As this is New Year's day, I will write you a few lines to let you know how I am getting along since I was released from the prisoner of war camp in Germany. I don't remember if I have written to you since my release or not but if so, maybe it won't do but little harm to duplicate some of my morer letter to you as no doubt you already know that I arrived back in France about Dec. 1st via Switzerland and while traveling thro that little country, received from the Swiss people some royal welcome, especially in Berne and Geneva where the American Red Cross society met our train and simply came in and dragged us from our car to show us a good time and that we were welcome there. Just before arriving in France, we passed thro one of the longest railroad tunnels in the world. It passed under a large mountain near Mt. Blanc and was something like six miles long. We arrived in a little town in France called Bellegarde, where we were met by an American Red Cross train and from there taken to Allery, France, to a large American base hospital, where we were quarantined for a few days until they were satisfied that we had no kind of contagious disease. All this time we were treated like kings, being waited on and cared for by the pretty nurses and while there I sent a telegram to A. E. F. headquarters to get reassigned to my old regiment, the 7th infantry and therefore, in a few days, my request was granted and on Dec. 9th, I left there with a few days' leave of absence before reporting for duty. So here are some of the cities which I visited on my leave. You can get a map of France and Germany and find these places easy. They are: Paris, Tours, Chalons, Verdun, Nancy, Toul, Cambrai, St. Quentin, Metz, Treves and my old historic battle field, Chateau Thierry. As you know, some of these places saw some of the bitterest fighting in this war.

I was in Paris on Dec. 14th, the day that President and Mrs. Wilson came there and talk about a crowd! That was the largest and the hardest one to get thro that ever I was in. I managed by the hardest to see the President and his wife and believe me, he certainly was welcomed to the city by all and it was a big day for all Americans.

Well, after this fine trip around France, I rejoined my outfit, Dec. 22 at Coblenz, Germany, which is on the river Rhine. I stayed there until December 26th and then came back to Chantillon-sur-Seine, France, where I am in an infantry weapon school now and will be here for one month and then go back to Germany. So this ends my history from the time of leave from Deutschland to now. I do not know just how long I will be over here. Would like to be back home and see all you folks now and again, as was with the first to set foot on European soil. I wouldn't mind to be the last to leave and if that be my luck, I look to be here for at least six months longer.

Since I have been in the army, I have travelled something like 20,000 miles; have been in Mexico, France, Belgium, Germany, Luxembourg and Switzerland and in 27 states in America; all the way from San Francisco to New York and have seen some beautiful country and grand cities in my travels. But if I was back in Richmond, Ky., today I think it would look better to me than all the rest. I guess you think it is high time that I am coming back there. Well, believe me, I am as soon as possible and I think I will pay you one long visit when I do come, as you know I have had nearly six years of this army game, altho I like it just fine, but then I think just a few weeks at home would do me a whole lot of good. I sure am anxious to see all of you. I guess the children have grown so much I would not know them and it is very doubtful if I would you or Harlan, but I guess we could get acquainted soon, don't you? How did you all spend Christmas this year? I suppose old Santa Claus brought you and the kiddies all kinds of presents. I had a very good Christmas in Germany but I received no presents whatsoever, only some hard looks from the Germans. I hope by next Christmas I will be near enough to spend it with you all. Since Harlan got rich off his tobacco crop last year what is he doing now for a living? I hope he just keeps his good luck and makes money that way every year. I have now coming to me six months' pay from the government, which amounts to something like

\$1,000. I don't know if I ever told you or not when I was captured last July I had something like \$450 in my pocket and the dirty boche took it from me and that I have never seen since but such is a soldier's luck and there is no use to grieve over that. I just felt that was a very small piece of pay for such a victory as we have won over those brutes. Besides, I offered my life on the battlefields of France for freedom and God was good enough to spare me that, so what are a few dollars to one's life? I had been on the firing line thro seven to eight of occupation, making a total of about 75 days being under all kinds of shell, machine gun and rifle fire and besides I was in gas attacks several times, and was knocked out once, but not seriously; had my men killed on all sides and saw thousands killed, including our own men and Germans and I think I am a very lucky one to be able to write to you today. As I don't think it is against the censorship rules to tell of some of the places I have been in, I will tell you a few. The first time in the line was Oct. 20, 1917 on the Toul sector, which is just north of Toul, France. There I was under my first fire and heard the first big German shell come over and explode on our lines sending the dirt flying to the sky and since then I was on the front near Verdun when the Germans started their great drive on March 21st. I was with the Second Division in Belleau Woods from June 5th to June 29 and went thro some very stiff action there. I was on the Marne river near Chateau Thierry on three different occasions and several other small engagements before I was finally captured and I can say truthfully that my platoon accounted for Germans twice their number. On the morning I was captured, after one of my men was killed near me. I took his rifle and killed two Germans myself in front of our trench. You know it was always said one never felt good after killing a man, but it is quite different in war when you see those dirty boches trying to kill you and you get him first. It makes one feel real good afterwards and I got the glad hand from all of the old officers who were left in 7th when I came back, for the good work I and my platoon did on that well remembered day of July 15, 1918 at Chateau Thierry and I will never forget it as long as I live.

Well, I guess I will close for this time. This is the longest letter I have written since I have been in the service except one or two to my girl in San Antonio, which doesn't count as a news letter. This one is so long we will not try and read it over to correct mistakes so you excuse same and correct them as you read. Hoping this will find all well. Tell Harlan and the children I send them my best love. Answer soon. Your brother,
EDWARD W. GRAY.

To The Dyspeptic.
Would you not like to feel that your stomach troubles are over, that you can eat any kind of food that you crave? Consider then the fact that Chamberlain's Tablets have cured others—why not you? There are many who have been reduced to health by these tablets and can now eat any kind of food that they crave. You

can't give your cold storage battery away. There may be a few months of useful service in it if properly repaired. We are equipped to repair and charge any storage battery made. We carry a complete stock of Gould storage batteries and can take care of your requirement at any time. Call and see us when in Lexington. Dixie Automobile Co., Incorporated, 127 East Short street, Lexington, Ky., H. A. Cobb, Mgr.

GOOD PRICE FOR CRADLE
The Family Relic Brings \$100 for Red Cross Fund in Kansas.

Grasswood Falls, Kan.—It is not every man who has the satisfaction of seeing the old-fashioned cradle in which he was lulled to sleep more than forty years ago sell at an auction for the Red Cross for \$100 cash by way of finishing up its days of usefulness.

This, however, was the experience of E. G. and A. T. Crocker of this county, extensive cattle men and large land owners, the latter state senator of this district.

At the public auction of A. T. Frost, a Mattfield farmer, the much-used and old-fashioned cradle, which had done service for the Crocker brothers, was offered for sale. It was bid in many times and was finally sold and retained by N. Gosler, cashier of the Mattfield Green State bank, after it had brought in receipts totaling \$100.

Eats Twelve Pounds of Pickles.
Springfield, Ill.—Martin McKee, a coal miner, may well be termed the champion pickle eater of the world. On a wager he devoured 25 of the appetizers in one sitting and won \$5. They were of the large-sized variety and in all weighed 12½ pounds.

STOMACH UPSET?
Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lax, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for laxatives.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their size and shape. They do the work without any harshness or pain.

Use one or two for bedtime for quick relief, so you can rest what you like. At 10c and 25c per box. All druggists.

W.D. Oldham & Co's.

LOOM END SALE

Sale begins Tuesday, Feb'y. 4th, closes Tuesday, Feb'y 18th

Let us bring home to you the "REASON WHY" of this Sale. Your coal bill, for instance, will tell you. Also the thermometer. The weather has been so warm that winter goods have not been needed, so we need to sell a lot of winter goods. That's clear isn't it? And you know we haven't had a bit of winter and you know that winter goods will be a necessity during January, February and March. Wouldn't be surprised about April, either. But the BIG IDEA is winter goods at such BIG REDUCTIONS as you will see when you attend our BIG LOOM END SALE. Announcing this sale is no surprise. It would be a disappointment if we did not, as hundreds upon hundreds of people are waiting anxiously for it. This annual event has been occurring for over 30 years and each recurrence brings thousands of people into that state of happiness occasioned by the procurement of good and reliable merchandise at a big saving. We must sell at once irrespective of loss. We purchased merchandise far below the market value. You people who have been waiting for this big sale, do not delay. Come buy the biggest bargains in seasonable, first class merchandise we have ever offered at any previous sale.

BUSY BEE CASH STORE

RICHMOND, KENTUCKY

Mother's!

Watch the tongue
Of your young!
Your little pet
Need candy "Cascarets!"
Sell for a dime—
"Work" every time.

When the kiddies' tongues turn white; breath feverish; stomach sour. When your little pet become cross, pale, bilious, constipated or have a cold, give Cascarets as directed, on each 10 cent box. Cascarets taste like candy but work out the nasty bile, sour fermentations and poisons better than castor oil, calomel or pills. Children need never be coaxed to take this harmless candy cathartic. Cascarets are given to children aged one year and upwards. They never gripe. Never disappoint the worried mother.

Merry Makers Coming

The following clipping is from a Lexington paper: The Ada Meade theatre comes to the front again this week with a fine bill of clean and clever vaudeville and a good motion picture feature. Orth & Coleman's star musical tabloid company, the Majestic Merry Makers, have as good an entertainment as has ever been seen here, opening the show after the Sunshine comedy film, and furnishing an hour of hustling and classy musical singing and funny stuff. Three box crowds enjoyed the show Monday and that is the best proof that it is what it claims for it. The girls are up to the needs in looks and limberness, have good singing voices and keep things going.

The Majestic Merry Makers will be here for three night beginning Monday.

FOUND—Another bunch of keys was found on Stockton's corner and brought to the Daily Register office this morning; this makes four bunches here now. Better come in and look them over if you've lost any keys.

Richmond Boy Severely Wounded In Russia

Buford West, of Walnut street, received the distressing news by wire yesterday that his brother, Stewart West, was severely wounded in action near Archangel, Russia, February 4. Young West went over in the 339th Infantry from Camp Taylor, and has many warm friends at home here who will hope that he pulls through all right. The dispatch to his brother here said:

Washington, Feb. 12, 1919.

Mr. Buford West, East Walnut st., Richmond Ky.—Deeply regret to inform you that it is officially reported that Private Stewart West, infantry, was severely wounded in action in Archangel, Russia, February 4th. Further information when received.

HARRIS, Adj. General.

Mrs. Gay's Will Sustained

A decision of the Clark circuit court in a case, in which the principals are well known in Madison county, has just been affirmed by the court of appeals, involving as it does a number of most prominent families in Clark. The case was that of Gatewood Gay and others against Jacob Gay and others, in which the will of Lizzie H. Gay was constructed. Mrs. Gay died leaving an estate of \$300,000, about two thirds of which went to Jacob D. Gay, a son, and the remainder of the estate to the children of Benjamin T. Gay, a deceased son. The court was asked to set aside the will on the ground of mental incapacity. The contents of the will produced evidence that their grandmother was influenced largely by dreams and her interpretation of them.

When the son, Benjamin, was ill 35 years ago, Mrs. Gay had a dream in which she was told to pile on fagots and she interpreted the dream to mean that she must put her son in an exceedingly warm room, which she did, and he recovered. Again she had a dream in which she was told "to wash your rings." She interpreted this dream to mean to take the land which she had placed in the control of her grandchildren out of their control and manage it herself, which she did very successfully. She had many others, the last of which was a bear pressing against the door of a large building, and finally breaking the door in, which she interpreted to mean that Russia would go to pieces during the war. An alienist testified that one having such dreams is insane. The court, however, took the opposite view and decided that Mrs. Gay was capable of making her will.

WANTED—I have an order for two ponies and two pony rigs; see me at once. Lyman Parrish. 64 6p

LOST—A valuable pin; leaves of gold with diamond sets in them; reward if returned to Mrs. C. S. Powell. Burnamwood. 64 tf

Why Direct Air-Cooling is the most Advanced Engineering Practice for Automobile Engines

- 1 Does away with the 177 water-cooling parts (plumbing, fan, radiator, pump, and all connections found in all water-cooled cars.
- 2 There is nothing to freeze, or boil, or leak or clog.
- 3 There is nothing to wear or shake loose.
- 4 Eliminates dead weight of complicated cooling machinery and water itself.
- 5 The engine is more efficient; turns more of the gasoline into power.
- 6 Always ready to operate. Does not have to be filled up or oiled.
- 7 Requires no care; no draining, no anti-freezing mixtures, no temperature gauges
- 8 Operates equally well in hot or cold, wet or dry climates; in high altitudes or low altitudes.
- 9 Not dependent on the forward rush of the car for air currents.
- 10 Makes the car safe to use all the year round.
- 11 The engine does not "run hot" or over-heat under extra hard work, like going through sand or mud or up long hills.
- 12 Engine will run indefinitely with the car low gear.
- 13 Does not use the cooling medium over and over again. The air is ever-fresh.
- 14 Makes it safe to leave the car standing in winter, same as in summer. No danger from unheated garage.
- 15 Rigid frame not necessary, there being no delicate radiator to protect. The whole car is made flexible and easy.
- 16 System remains uniformly efficient; no wear to affect its efficiency, no boiler scale deposit to cause heating up. Always the same, no matter how long the car has been run.
- 17 It is the only practical way to eliminate cooling troubles.

Some Unusual Records made Possible Only by Franklin Direct Air-Cooling

National Run, 100 Miles on Low Gear

On September 24, 1914, 116 stock Franklin cars, in different parts of the country, each ran 100 miles in low gear, in ten hours' time, without stopping the engine.

Efficiency Records of the Franklin Direct Air-Cooled Engine

In the National Economy Test May 1, 1914 94 stock Franklin cars, in all parts of the country, averaged 32.8 miles on a single gallon of gasoline.

On May 1, 1915, 137 Franklin Cars, in all parts of the country, averaged 32.1 miles on a single gallon of gasoline, under the rules of the National Efficiency Test.

In the National Efficiency Demonstration of July 13, 1917, 179 stock Franklin Cars, in all parts of the country, averaged 40.3 miles on a single gallon of gasoline.

The Franklin has won every prominent official economy test ever conducted, and continued to win so long as official tests were run.

New York To Chicago Oil Test

Between November 17 and November 20, 1915, a stock Franklin Sedan ran 1,046 miles on one gallon of lubricating oil, from New York to Chicago.

From the Poles to the Equator

Franklin cars are in daily service in the cold of Alaska, in the arid lands of the Imperial Valley, and in the tropics of the Indian Empire, Japan, and Africa.

860 Miles on Low Gear, Walla Walla

To San Francisco

Between August 1 and August 4, 1915, a stock Franklin Car ran in low gear from Walla Walla, Wash., to San Francisco, Cal., 860 miles, in 83 hours and 40 minutes, without stopping the engine. The route lay through the John Day River Gorges and Harney Desert in Oregon, the Siskiyou Mountains and Burney Pass in California. High and intermediate gears were removed from the transmission before the start, and the transmission was sealed. This seal was officially examined in San Francisco and found to be intact.

WE OFFER SUBJECT TO WITHDRAWAL WITHOUT NOTICE

\$10,000.00

FULLY PAID AND NON-ASSESSABLE COMMON STOCK OF THE

Domestic Oil & Refining Co.

of Wyoming

Incorporated

AUTHORIZED CAPITAL \$1,000,000.00

at Par Value of TEN CENTS Per Share

With a Guarantee of 100 per cent of the Investment
(This stock is now being sold elsewhere at 20 cents per share)

The Domestic Oil & Refining Company owns valuable leases in the Berea and Stanford Oil Fields, with other leases pending in Lee and Estill counties, and the purpose of this offer is to create a developing fund to be used in drilling and developing of these leases.

The subscribers to this fund will receive in addition to their Stock Certificate, a SPECIAL REFUND CONTRACT, the terms of which provide for one-half of all the proceeds from the sale of oil in this state set aside for the

Refund of Your Total Investment

after which you will participate in the dividends of the company as long as you wish to retain your stock in the company. The operating expenses are to be taken care of from the other half of the oil produced.

As the amount of stock carrying this REFUND is limited and to be sold at only TEN CENTS PER SHARE, purchasers should write or wire orders in at once. This will assure you of getting the 100 per cent Refund Certificate in addition to your stock. Remember as soon as this block of stock is gone the price reverts to TWENTY CENTS PER SHARE, as heretofore.

A Mother's Happiness Made Perfect

Of Utmost Importance That She Have Her Baby's Care.

The expectant mother's physical comfort should be our first thought, and all about her baby's coming be complete. There is a most splendid remedy to prepare women for the greatest time in their lives, known as Mother's Friend. It is applied to the muscles of the abdomen, gently rubbed in, and at once penetrates to relieve strain on nerves, cords and ligaments. It makes the muscles so pliant that they expand easily when baby arrives; the hours at the time are fewer, and pain and danger at the crisis is naturally avoided. Mother's Friend enables the mother to preserve her health and strength, and she remains a pretty mother by having avoided discomfort and suffering which more often than otherwise accompanies such an occasion when nature is unaided. Every nerve, muscle and tendon is thoroughly loosened. Therefore, when the period is completed, and the baby is born, the mother is left in a better condition than when she began her pregnancy.

LIFT OFF CORNS!

Doesn't hurt at all and costs only a few cents

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the toughened calluses or "hard skin" on bottom of feet, then lift those painful spots right off with fingers. Corns also!

When you peel off corns or calluses with Freezone the skin beneath is left pink and healthy and never sore, tender or even irritated. Try Freezone sure! 1t

and Mrs. Tevis Rayburn, is quite ill, and Miss Margaret Rayburn was called to his bedside the first of the week.

Miss Jessie Carpenter, of Flemingsburg, is the guest of her brother Dr. Homer Carpenter, and Mrs. Carpenter at the parsonage.

Hon. Jerre A. Sullivan and Mr. Edwin Powell will leave Tuesday to spend several weeks touring Florida. They will visit many places of interest during their stay.

Mr. and Mrs. Sam Gilbert and Mr. and Mrs. Howard Gilbert and Mrs. Mollie Baldwin, all of Clary county, were here Thursday to attend the funeral of Mrs. Sue Dudley.

Mr. and Mrs. T. M. Wells and daughter, Miss Lou, will leave soon to

make their home in Asheville, where Mr. Wells has accepted a splendid position. They have numerous friends here who will regret to see them leave.

Stoller Best's Fine Work

Few boys from old Madison, or anywhere else in Kentucky, are seeing the active and continuous service that young Stoller Best, son of Mr. and Mrs. Thomas Best, of this city, is experiencing. Young Best was the first Madison county boy to go across the waters, having gone over with the first contingent of marines. It was his organization which checked the Huns on the Marne at Chateau Thierry. He has been a member of the marine corps for four years, and has been in France since America got into the war, thus seeing active service about 36 months. He is now a top sergeant, and doing splendid work. Just when he will get home is uncertain, but he is certain of a cordial welcome when he does, and his friends and family here are rightfully mighty proud of him.

FOR SALE—At a bargain: A scholarship in one of the best known Lexington Business Colleges. Present owner unable to use this scholarship and if you are contemplating a business course, it will pay you to investigate this opportunity. For further particulars inquire at Daily Register office. 56 tf

Tobacco Higher This Year

An average of \$34.20 for the 1918 sales of burley tobacco compared with an average of \$30.67 for the burley sales during the same month last year is shown by the monthly report of tobacco sales, poundage, etc., just issued by the State Agricultural Department. The figures on the burley crop are as follows:
Burley tobacco sold for growers: 96,861,423 pounds; for \$33,300,315.25; average \$34.38.
Burley sold for dealers: 13,021,941 pounds; for \$4,550,822.59; average \$34.95.
Burley tobacco resale: 6,766,223 pounds; for \$2,037,706.30; average \$30.12.
Total burley and average: 116,649,578 pounds; for \$39,888,844.14; average \$34.20.

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me."

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Alters.

Women everywhere in Mrs. Alters' condition should profit by her recommendation, and if there are any complications write Lydia E. Pinkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years experience is at your service.

Richmond Daily Register

S. M. Sauley, Editor & Proprietor
Entered at the postoffice at Richmond Ky., as second class mail matter under Act of Congress of 1875.

HERO IS DECORATED

A photograph of General Edwards, commanding the Northeastern department, pinning the congressional medal of honor on Lt. Col. Charles Whittlesey for bravery in the battle of Argonne forest, where Colonel Whittlesey and his command were surrounded by the Germans and held out for five days without food or ammunition, refusing to surrender to the Huns, until they had lost 75 per cent of their men, when they were rescued by American troops who cut through the German lines.

SMUGGLING BY AIR

Powerful Airplanes Being Used on Mexican Border.

Authorities Say That Contraband Traffic Is Carried Across Rio Grande.

Laredo, Tex.—It is the firm conviction of Mexican customs officials on the lower Rio Grande border that systematic smuggling by means of powerful airplanes is being conducted between that country and the United States. The American authorities on this side of the international boundary are not yet convinced that contraband goods are being carried in this manner from one country to the other, although they freely admit that it is possible if not very probable that this is being done.

If evasion of the export and import duties by this means is not already being carried on it is only a question of time when the airplane will be brought into service for that purpose. It is predicted by custom officials here and at other places on the Mexican border.

It is with considerable circumstantial detail that the story is told of the aerial traffic by professional smugglers. Jose Longoria, a Mexican river guard stationed at San Ignacio, about sixty miles below Laredo, made a report to his superior officer about three weeks ago that while on duty late at night he saw moving lights pass high above him and heard the whirr of a motor. The object was headed north and came from some point to the south in Mexico. Similar reports were made by other Mexicans who asserted that they saw the strange aerial machine go back and forward across the Rio Grande on several different nights. Up to this time no corroboration of the stories told by the Mexicans have come from American river guards.

It is recommended by the custom authorities of both Mexico and the United States who are on duty along the Rio Grande that airplane control service be established on both sides of the river at the earliest possible time.

NOTICE—All persons having claims against the estate of the late V. L. Roberts, will present same to the undersigned properly verified as required by law, within the next 30 days, and all persons knowing themselves indebted to the estate will please settle at once. R. E. Tudor, administrator. 52 4p

Public Sale

of Blue Grass and Tobacco Land Tuesday, February 18th, 1919---10 A. M.

We will offer for sale publicly the farm of E. W. Warford known as the "Joe Bales" farm on the Kingston and Crooksville pike, and containing 150.29 acres. The farm will be offered in THREE TRACTS containing 25, 40 and 85 acres, respectively, and will then be offered as a whole.

TRACT No. 1—25 ACRES adjoining the land of Hugh Murray and Powell. Seven acres now in wheat. No improvements.

TRACT No. 2—40 ACRES fronting on the Kingston and Crooksville pike; 16 acres of wheat on this tract; the balance to go in corn. No improvements.

TRACT No. 3—85 ACRES fronting on the Kingston and Crooksville pike; 25 acres of virgin soil; 35 acres almost as good; 10 acres to go in tobacco and the balance in the yard and lots. Upon this tract is a dwelling, good stock barn, tobacco barn, and all necessary outbuildings.

POSSESSION OF THESE FARMS WILL BE GIVEN IMMEDIATELY. TERMS LIBERAL and will be stated on the day of sale.

If you want to buy a farm, this is your opportunity. It is very seldom that this kind of land is placed on the market, and if you want a farm, come to this sale, for it is going to be sold, rain or shine. Farm land is not going down. It is going up. Whoever buys this farm will help to feed Europe, and don't forget that the high price of tobacco has come to stay.

AT THE SAME TIME AND PLACE, WE WILL ALSO SELL THE FOLLOWING

- 16 yearling steers
- 4 weanling heifer calves
- 1 combined family horse, 7-years-old
- 3 good milch cows, 3 to 7 years old
- 1 good pony, 7-years-old
- 4 sows and 23 pigs
- 12 80-pound Duroc shoats
- 1 boar, weight about 150 pounds
- 1 good brood sow, to pig in April
- 1 meat hog, weight about 200 pounds
- 50 barrels picked corn
- 30 barrels short sound corn
- 200 shocks of fodder
- 1 ton or more of millet
- 1 two-horse wagon
- 1 new buggy

- 1 old buggy
- 1 disc harrow
- 1 Brown cultivator (walking)
- 1 9-foot section harrow
- 1 No. 12 Vulcan breaking plow
- 1 double shovel plow
- 1 tobacco plow
- 1 Hoosier wheat drill
- 2 sets buggy harness
- 1 set plow and wagon harness
- Wire stretchers
- Hoes, Shovels, Picks, Diggers
- Lot of loose lumber
- Household Goods
- Florence Heater as good as new, and other things too numerous to mention.

This farm and these articles are going to be sold without by-bid. Mr. Warford is going to sell. The high dollar gets them.

Anyone desiring to inspect this farm can do so by seeing the undersigned, who will take pleasure in showing it to you; or Mr. Warford will be glad to show it to any party desiring to purchase.

DON'T FORGET THE DATE—TUESDAY, FEBRUARY 18, 1919, AT 10 O'CLOCK A. M.

Weekly Health Talks

What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloes, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your drugist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

HITCH HERE.

I will hitch your horses at the following rates: hitch on Saturday and public days, 25 cents; hitch private days 15 cents; hitch at night 25 cents. 57 12 p LYMAN PARRISH.

Bids Wanted

Sealed bids will be received by the Building Committee of the S. B. M. S. on February 18, 1919, up to 1 o'clock p. m. for the erection of a High School and Auditorium Building and landscape. Plans and specifications can be secured at the school office at any time. The accepted bidder will be required to furnish bond with approved surety, for the proper performance of the work. The committee reserves the right to reject any and all bids. Address Building Committee, Sue Bennett Memorial School, London, Ky. 44 and 8t

Farm For Sale Cheap

A good farm of 112 or 113 acres, never failing water, a good warm house of five rooms and oak porch, water in kitchen and sink, a good well near door, cold and never gets low even in very dry times, plenty of stock water at all times. A mile from house, near two churches, not far from two pikes, two orchards one bearing and a young one put out two years ago, plenty of outbuildings, well fenced, can be sold in two tracts; no tobacco has ever been raised on the farm. Some one with a little money can buy it and pay for it in a short time. Come and see for yourself.

Joe Long Jr.

NEWBY, KENTUCKY

The Right Laxative For The Little Ones—

The natural condition of a child is to be happy and carefree. When the girl mopes and is indifferent to school and study, or the boy is sullen and refuses to go out and play, the child needs a laxative to empty the bowels and stir up the liver.

But something should be given that will produce the result in as simple and natural a way as possible. Harsh cathartics and physics are neither necessary nor desirable.

Many mothers have found that the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr.

Caldwell's Syrup Pepsin produces a free movement of the bowels without griping. A very little is required, and it is pleasant to take. A few hours after its use the child will be its happy self again.

It is an excellent remedy for the mother herself, and for the other members of the family, in obstinate or occasional constipation, for the relief of headaches, as an aid in colds and fevers, minor skin eruptions and all disorders where the basis of the trouble is constipation.

The druggist will refund the money you pay for Syrup Pepsin if it fails to do as promised.

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 6 years. Two sizes—50c and \$1.00.

FREE SAMPLES

If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 466 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

ARE You Mechanically Inclined?—Learn a trade; learn auto, tractor, truck, and airplane business; big pay; wonderful opportunities; learn by Sweeney System practical instruction in eight weeks; army school now open to you; same instructors, equipment and methods used in training five thousand soldier mechanics for gov-

ernment. Soldiers and sailors released from duty should prepare themselves for the future. Write for big free catalog; tells whole story. Sweeney Auto School, Department 937, Sweeney Building, Kansas City, Mo. x

SIR THOMAS LIPTON

Sir Thomas Lipton has challenged again for the America's cup, but the yacht race probably will not take place until 1920.

BIG GUNS BROKE GERMANS' HEART

Capture of Great Fortress of Laon Due to Yank Navy Cannon.

BIG SURPRISE FOR HUNS

Only Five of the Monster Guns Were in Action, but Enemy "Heard Thirty"—Would Have Blasted Frontier to Pieces.

New York.—That the capture of the great fortress of Laon was due to American naval guns mounted on flat cars and manned by naval gunners and that the navy men would have blasted the German frontier to pieces if the war had continued, was the assertion of naval railway battery men who arrived here recently on the transport Henderson. The appearance of the big naval guns of the 14-inch type on the west front was one of the most unpleasant surprises the Germans got throughout the whole war, they declared. There were only five of them in action, but they were handled with such rapidity that the bewildered Teutons believed there were 30 of them in France.

Mangin Gives U. S. Credit. General Mangin, the famous French commander in that sector, himself credits Rear Admiral Plunkett and his naval gunners with the taking of Laon. The big 14-inch guns pounded the fortress to pieces and hurled giant shells on railroad lines communicating with the city. When the guns got into action they were fired every three minutes, a speed which the Germans considered impossible in handling such monsters. It was this which gave rise to the belief of the Germans that there were 30 instead of five of the guns in action.

There were six more of the giant cannon on the way to France when the fighting ended. They were of the same bore, but were far more mobile, as the five in action could only be used from a pit when they had to be fired at an angle of more than 15 degrees.

"Gee, if the war hadn't quit we would have shown those Germans something about handling big guns," sighed John Mason of 1034 Mason avenue, Chicago, "but we showed them plenty as it was."

Three of the five guns, the naval gunners said, were in the American sector in the Argonne and the other two were with the French. One was at Solissons. They had a range slightly in excess of 35 miles. Each shell fired weighed 1,400 pounds and it took 470 pounds of T. N. T. to send it on its path of destruction back of the German lines. When the shell hit and exploded it opened a crater in the earth in which a large-sized American railway box car could be comfortably interred.

Amazed the Poilu. On the American sector the three big guns were mounted within 200 yards of one another and were always fired in rapid succession. The concussion was terrific.

The gunners told a story of a French soldier who happened to be standing too near the giant cannon when they were fired. When the first one was fired the concussion hurled him violently to the earth. He staggered to his feet just as the second one let go, and down he went again. Up he climbed again, only to be dashed to the ground for the third time as the third gun roared.

He got up, pale but excited, crying in French what in American would mean:

"This will end the war. This will finish the Germans."

The last shell fired by the navy men left the American lines at exactly 10:23 o'clock on the morning of November 11. It was so timed that it would explode back of the German lines at exactly 11 o'clock, or on the second that the armistice went into effect.

We have a new 2-ton International truck and a smaller truck and can take care of your hauling of any sort at reasonable prices.

CITY TRANSFER CO.

HERE'S QUICK RELIEF FOR YOUR TIRED, STRAINED MUSCLES

When your muscles become tired and swollen and the joints become stiff, your circulation poor, and your suffering makes you irritable, an application of Sloan's Liniment gives you quick relief—kills pain, starts up a good circulation, relieves congestion. It is easier and cleaner to use than musky plasters or ointments, acts quickly and does not clog the pores. It does not stain the skin.

For sprains, strains, bruises, "black and blue" spots, Sloan's Liniment reduces the pain and eases the soreness.

Certainly fine for rheumatism, stiff neck, sciatica, lame back, toothache.

You don't need to rub—it penetrates. Its use is so universal that you'll consider Sloan's Liniment a friend of the whole family. Generous size bottled at druggists everywhere.

Fordson Farm Tractor

We are agents for Fayette, Madison and Jessamine counties, and will make deliveries to your farm. The Farm Tractor has become an agricultural necessity, in view of the uncertainty and high cost of labor. The present high prices of all farm products, and the absolute necessity of food for the world, puts the question of intensive and extensive cultivation by all progressive farmers, that they may make hay while the sun shines. The Farm Tractor is the most economical and the quickest of all means of cultivation.

The Fordson Weighs 2800 lbs.

It is light and powerful, it has a development of 22 horse power at the belt pulley, a draw bar pull of 1800 pounds dead weight in second speed, and 2,500 in low speed, it has three speeds forward, draws two 14-inch mold board plows at the rate of four miles per hour, and can be turned in a space of ten feet. With the pulley attachment it can be utilized as a stationary engine, uses coal oil as fuel. The price of this Tractor is \$965.00 including belt pulley. We carry all repair parts and can keep your Tractor at work all of the time. Let us show you this farm necessity and demonstrate its essentiality to your needs.

Buy a Lily. You Will Be Glad You Did

YOU can't begin to appreciate the Lily cream separator until you get acquainted with it. If you have been in, you know. If you haven't—well, it isn't too late.

A Lily will give you the best of service for 365 days a year—twice a day—and keep it up for years. It will meanwhile save you many dollars in dairy profit because it gets all the cream. It will save you time and trouble too, for it is simple, easy to keep clean and sanitary. It has a thorough oiling system that works all the time the handle is turned.

Put a Lily separator to work and you will be glad you did. Before you buy, come in and examine the Lily thoroughly.

All persons owing Gentry Jones in any amount will greatly oblige the undersigned by mailing check to her for the amount. —Zerelda M. Jones, Adm. 63 6

List of Owners of Tax Paid Dogs To Be Published

County Clerk J. W. Maupin has turned over to the Daily Register for publication, the names and addresses of the over 2,700 persons in Madison county who have taken out licenses for their dogs under the new state law. Owing to inability to "set up" the big list and get up the usual routine of news matter for each day's paper, on its one typesetting machine, the list will not appear until next week. The law says this list must be published by February 15th, but it won't be Mr. Maupin's fault that it isn't, for he turned it over several days ahead of that date, and only the limited mechanical facilities of the Daily Register's plant has delayed it. Other papers all over the state are publishing their county lists. In many of the papers, it is noticed that sheriffs have already begun to impound dogs found without license tags, and unless they are claimed and license paid, they will be killed. So far so dog arrests have as yet been made in Madison but it is expected that Sheriff Whitlock will immediately begin to enforce the law, when the lists are published.

Paint Lick.

Dr. H. J. Patrick is out after a mild case of flu.

Mrs. Lena Brown has accepted a position as clerk in Henry Conn's garage.

Will Champ, James Beasley, and Will Cook, were on our streets Wednesday soliciting for a tobacco warehouse at Lancaster.

Will Petrick's family is improving and are about well of the flu.

We regret to say that Mrs. R. G. Woods remains on the sick list. Her many friends will be glad to see her well again. Her mother, Mrs. John White, of Nicholasville, is with her now.

Henry Conn has installed the Deleo electric light plant in his garage.

Miss Ana Belle Ballard is visiting her sister, Mrs. Jack Davis.

P. Hensley has bought of Jack Davis five acres of land at \$300 per acre.

Miss Myrtle Coldiron and Mr. Jas. Ingram were married Wednesday.

Subscribe for The Daily Register.

It's Quality that counts

Clover

I still have a few bushels of that High Grade Red Clover that I can sell at \$26.10 per bushel. If you are going to need Seed, it will pay you to compare my Seed and prices before buying.

F. H. GORDON
COAL and FEED

Remember that Tobacco Bed sowing is here—Tobacco Fertilizer will grow them.

GET AFTER THAT COLD RIGHT NOW

Got right after it with a bottle of Dr. King's New Discovery

She never let a cough or cold or case of gripe go until it grew dangerous. She just nipped it when she began to sniffle or cough before it developed seriously.

Men, women, and children of every age have used this preparation for fifty years as a prompt reliever. All ages are using it today because of its positive results.

Generous size bottles. 60c and \$1.20.

Constipation Corrected

Dr. King's New Life Pills tonight mean clear bowels, a clear head, clear thinking, a day well begun in the morning, good digestion, clearing skin. Mild in action but sure and comfortable. At drug stores everywhere. 25c.

No Great Act of Heroism Required

If some great act of heroism was necessary to protect a child from croup, no mother would hesitate to protect her offspring, but when it is only necessary to keep at hand a bottle of Chamberlain's Cough Remedy and give it as soon as the first indication of croup appears, they are many who neglect it. Chamberlain's Cough Remedy is within the reach of all and is prompt and effectual. Jan

College Hill

The flu situation is decidedly better, there being no new cases and those who have had it are improving.

Mrs. G. L. Edwards who has been very sick with flu and pneumonia for the past month, is getting better.

Mrs. Nannie Hockersmith who has been a very sick woman for a month, is slowly improving.

Mrs. Dave Offett, who was called here on account of her mother, Mrs. Nannie Hockersmith, who was seriously ill, has returned to her home in Midway.

The Best Cough Medicine

When a druggist finds that his customers all speak well of a certain preparation, he forms a good opinion of it and when in need of such a medicine is almost certain to use it himself in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist at Cuburn, Ky. says, "I have used Chamberlain's Cough Remedy in my family for the past seven years, and have found it to be the best cough medicine I have ever known." Jan

Laine Gives Colored Farmers Good Advice

Henry A. Laine, Madison county's very efficient colored farm agent, has just addressed an important letter to the colored farmers of Madison county, which is worth reading and heeding by every farmer. He says:

Colored Farmers of Madison County: The Department of Agriculture of Kentucky University, co-operating with the Department of Agriculture at Washington, D. C., set February 10 to 15th, as Farm Implement Repair Week, all over Kentucky. As I did not get notice in time to inform you I request you to observe February 17-22, as Farm Implement Repair Week in Madison county. I request you to get your implements under cover, so that, rain or shine, they may be examined to determine what repairs are needed before the busy season begins. Dirt and rust should be scraped from plows, cultivators, harrows, and hoes, and all parts painted, except the wearing surfaces. These wearing surfaces should be scraped and sand papered, then given a coat of grease, so that they will not rust again before using time. Pour oil over rusty bolts and screws so that they can be tightened. Find out what parts are broken and order new parts at once, as transportation facilities are such that ordered parts may not arrive promptly and your farming operations, as a result, delayed. Mend the breaks and rips in bridles and harness, and put rivets where ever the strain is greatest. This is going to be a prosperous year for farmers, so get ready for the great Spring Drive for bigger and better crops. Cordially yours,

HENRY A. LAINE,
County Agent.

"A JAPANESE NIGHTINGALE" AT OPERA HOUSE TONIGHT

Fanny Ward's popular success in "Innocent" and "The Yellow Ticket," she is certain, will be far surpassed by "A Japanese Nightingale," the first of the Pathe Extra-selected Photoplays which will be shown at the Opera House Friday night. Some of the scenes are of surpassing beauty and the romance based on Onato Watanabe's widely read novel, is unfolded with rare skill and feeling.

The story has an unusual record in that it was first a "best seller" then one of Broadway's big dramatic successes and now finally is shaped into a pictorial masterpiece, with a potent star, a picked company, the majority of whom are skilled Japanese players and the artistic and sympathetic direction of the master-craftsman Geo. Fitzmaurice. It is so lyrical in its feeling, so rich in color and emotion that Alden Sedgwick, author and critic, has called it a "singing picture."

The singing and talking pictures will also be shown.

TOBACCO BARN BUILDER—The

old tobacco barn builder is finishing up his 61st tobacco barn at J. V. Whitlock's on the Tate's Creek pike. If you have one to be erected call on E. F. Masters, Richmond, Ky., R. D. No. 4. 64 2p

Col. J. H. Pearson, the well known auctioneer and Poland-China man, is preparing to go to Louisville the week of February 25-28, to attend the week live stock and hog sales, shows and meetings.

FOR SALE—Perfectly new genuine leather davenport; a bargain if sold at once. Mrs. Selby Wiggins, phone 521. 57 6p

All Choked Up With Catarrh? Why Continue Makeshift Treatment?
Ssprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs. This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood. Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote. S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B, Atlanta, Ga.

Tobacco Barns for Sale

Don't forget the big price tobacco has been selling for. Now is the time to prepare for this year's crop. Frost may come before your barn is ready—do not wait.

We also sell good SILOS, and are prepared to take care of your requirements for everything in building material. Phone or write us—or better still, come and see us.
